

## SensoLite 310 Set

### Laser receiver for red and green rotary lasers

This laser receiver is suitable for red and green rotary lasers and allows time-saving, close and long-range alignment work. The easy-to-read LC displays on the front and rear and clear acoustic signals provide the user with information on the height of the laser beam. The universal mount allows the device to be easily attached to levelling staffs. The integrated head magnet allows the device to be attached to metal surfaces. The reception range is 300 metres for red lasers and 200 metres for green.

- Fast alignment work in close and long distance
- Easily fixed to measuring staff with universal holder
- Easy-to-read LC displays on front and back
- Head magnet allow quick attachment to metallic surfaces
