

PowerCross-Laser 8G

Precision cross-line laser with 8 laser lines and plumb function - extremely bright due to Powergreen ++

This cross-line laser projects eight extremely bright, green laser lines – perfect for horizontal and vertical alignment throughout the room. The rotatable housing with vernier adjustment mechanism and a horizontal circle allows the laser lines to be precisely positioned. The device features a motorised slope function for creating gradients. The combination of the upper laser cross and a lower plumb laser allows the floor and ceiling to be worked on at the same time. The AntiShake mode allows the device to be set up quickly on vibrating surfaces and when exposed to wind. The integral handheld receiver mode means the PowerCross laser 8G can be used with an optional laser receiver – perfect for working over large distances. Controlling the laser remotely via the Commander app is a particularly practical solution in inaccessible locations. Choose between battery or mains operation.

- Precise horizontal and vertical alignment throughout the room
- The pivoted housing with a vernier adjustment mechanism and horizontal circle permits exact positioning of laser lines

TECHNICAL DATA

Self-Levelling Range	± 3°
Accuracy	± 0.1 mm / m
Levelling	automatic horizontal / vertical levelling with electronic levels and motors
Visibility (Typical)*	55 m
Laser Wavelength	515 nm
Laser Class	2 / < 1 mW (EN 60825-1:2014/ A11:2021 / EN 50689:2021)
Power Supply	Power adapter 5V/DC / 1A Li-ion battery pack 7.4V / 2.6Ah / 19.24Wh
Operating Time	approx. 4 hours
Operating Conditions	0°C ... 50°C, max. humidity 85% rH, no condensation, max. working altitude 2000 m above sea level
Storage Conditions	-10°C ... 70°C, max. humidity 85% rH
Dimensions (W x H x D)	130 mm x 225 mm x 130 mm x (incl. battery pack)
Weight	1506 g (incl. battery pack)

SCOPE OF DELIVERY

Item No. 032.090L GTIN (EAN) 4021563718122 SU 1
