

RangeXtender 30

Laser receiver for all line lasers with RX-READY technology

This laser receiver is suitable for all line lasers with RX-READY technology. The device detects the pulsating laser lines up to a distance of 30 metres and can be attached to measuring staffs – perfect for establishing reference dimensions. The integrated head magnet allows the device to be attached to metal surfaces. The two adjustable sensitivity levels ensure the optimum setting for short-range or long-range use.

- Fast alignment work in close and long distance
- Detection of the laser lines up to max. 30 m
- For all red line lasers with RX-Ready technology
- Easily fixed to measuring staff with universal holder
- Head magnet allow quick attachment to metallic surfaces

TECHNICAL DATA

Laser Reception Range	max. 30 m
Length of Receiver Unit	7994 mm
Automatic Switch-Off	after 5 minutes (if display remains unchanged)
Operating Range	(depending on room illumination) 30 m
Working Range with Hand Receiver	(depends on how the technology affects the difference in brightness) 30 m
Power Supply	1 x 9V 6LR61 (9V block)
Operating Time	approx. 15 hours
Operating Conditions	0°C ... 50°C, max. humidity 80% rH, no condensation, max. working altitude 4000 m above sea level
Storage Conditions	0°C ... 70°C, max. humidity 80% rH
Dimensions (W x H x D)	60 mm x 110 mm x 26 mm
Weight	130 g (incl. battery)

SCOPE OF DELIVERY
