

PocketLine-Laser G360 Set 150 cm

Practical cross line laser with a horizontal laser circle, green laser technology a wide range of possible uses thanks to a wide range of accessories including compact 150 cm tripod

This 360° line laser generates a horizontal laser circle and a vertical laser line at right angles to it for the exact alignment of objects. The green laser technology ensures clear visibility and gradients can be easily created using the manual tilt function. Its extensive range of accessories makes this laser a versatile solution for precise alignment work. The compact tripod has a wide adjustment range due to the multi-section telescopic legs and a crank (30 cm stroke). The PocketWallHolder, a multi-functional, height-adjustable magnetic bracket, is suitable for attaching to walls, metal items, and tripods with a 1/4" or 5/8" thread.
