

MaxView Camera

Camera unit VideoFlex with large depth of field and high intensity LEDs

This camera unit can be used with VideoFlex G3 and G4 and is suitable for checking hard-to-reach places such as in cavities, shafts, masonry or motor vehicles. The device has an extensive depth of field. Excellent object lighting with four powerful LEDs ensures reliable image capture even under poor lighting conditions. The camera head and cable are both waterproof.

- Camera unit for VideoFlex
- Large camera head for good view due to large depth of field
