

VideoScope XXL Set

Compact inspection camera for visual inspections of areas which are difficult to access – featuring record function

This compact video inspection system is suitable for easy checking of hard-to-reach places in pipes, cavities, shafts, masonry and motor vehicles. The small, waterproof camera head and the long, flexible cable provide a wide range of applications for the device over long distances. Illumination with four high-performance LEDs provides clear pictures, even in extremely poor light. Rotation ensures the image is always appropriately displayed on the monitor. The device has its own internal memory and an SDHC formatting function for direct transfer of videos and images to a PC. The guide sleeve ensures the unit slides smoothly over uneven surfaces.
